Project award for Valiant’s ransomware resilient, on-premises, key data center equipment by THDC

Valiant Communications Limited (VCL) announces the receipt of an order for ransomware resilient, on-premises, key data center equipment from THDC, (formerly Tehri Hydro Development Corporation Limited) a Mini Ratna Category-I Enterprise of the Government of India and a subsidiary of National Thermal Power Corporation Limited (NTPC).

THDC, a Critical Information Infrastructure (CII) organization is upgrading its data center with ransomware resilient, data center equipment that is offered by Valiant Communications Ltd., (VCL), a Class 1 manufacturer with its Made in India products and solutions. VCL offers its ransomware resilient data storage solutions designed for high throughput, low latency, mission-critical applications.

VCL data storage (on-premises) solutions are offered with customer application based with multiple layers of cyber security which include network isolation, quantum-safe encryption, data diodes and EMP protected data storage solutions that are specially designed for power sector, utilities, SCADA applications, government, financial, defence and critical infrastructure organizations.

Commenting on award of the project, Mr. Inder Mohan Sood, CEO said “We are very happy and excited as the new avenues open and opportunities continue to unfold. The growing need for ransomware resilient data storage is driven by the increasing frequency and sophistication of ransomware attacks. Organizations are placing ever-increasing emphasis on prioritizing data protection and recovery capabilities, and key strategies include immutable storage, secure onsite and offsite backups, and robust cybersecurity measures all of which, VCL is offering in its data storage solutions.

Data is projected to exceed 200 zettabytes by 2025 and over 100 zettabytes stored in the cloud’ (source: <https://cybersecurityventures.com/the-world-will-store-200-zettabytes-of-data-by-2025/> and spending fueled by generative AI expansion. The ‘global data storage market size was valued at USD 218.33 billion in 2024. The market is projected to grow from USD 255.29 billion in 2025 to USD 774.00 billion by 2032, exhibiting a CAGR of 17.2% during the forecast period. (2024-2032).’ (Source: <https://www.fortunebusinessinsights.com/data-storage-market-102991>)

About Valiant Communications: Valiant Communications is a manufacturer of a comprehensive range of IT and OT products and solutions which are used to provide end-to-end communication, transmission, protection, synchronization, data storage, and cyber-security to Government organizations, Utilities, Defence and the Transport sectors. VCL is an approved manufacturer to various reference customers across the globe, with track record of successful installations of its communications, transmission, protection, synchronization and cyber-security solutions in more over 110 countries.
